Louisa Milling Company,

Get the Real Thing.

There is castor oil that is castor oil, and then there is castor oil that is not "castor oil." The real thing is made from the castor bean, and the cheaper article is extracted from cotton seed. One "reaches the spot" and the other does s't. If you don't believe it, try a dose of each. The cheaper article is the one usually sold at general stores, and at some drug stores. We sell only the pure, genuine article.

Same way with other DRUGS.

There are substitutes and adulterations almost throughout the line. Buy where you can get pure goods.

A. M. HUGHES, Louisa, Kentucky.
